BOARD POLICY 506

CONDUCT OF COACHES

Page 1 of 1

Context

The Board of Education understands that physical literacy is a developmental priority for all students, and that for many students one key aspect of that is athletics, including competitive sports. Where coaches are needed for athletics, whether those are school district employees or community volunteers, there is a clear expectation among students, families, community members and the school district that coaches are to respect the privileged relationship that develops between a coach and an athlete. It is well understood in all areas of society that the role of a coach must be of a high standard of morality, accountability and respect.

Policy

The Board, while grateful to all who volunteer, including staff and community volunteers, for the important work of coaching students in athletics, has a clear expectation that coaches will demonstrate genuine respect and high levels of morality in addition to providing the time and expertise that comes with coaching

Guidelines

The Board believes that:

1. Support for volunteer coaches is a critical element of ensuring optimal opportunities for growth and development of young people.
2. For many students, athletics can be the foundation for connection to school, and coaches play a central role in supporting positive athletic experiences for students.
3. The conduct of coaches is expected to be at the highest level, including through the example of positive social interactions and appropriate conduct in all aspects of coaching.
4. As role models, coaches are expected to set a high ethical standard for student athletes.
5. Coaches are expected to abide by all expectations defined by BC school sporting bodies including BC School Sports.
