

EDUCATIONAL CHANGE DUE TO EMERGENCIES

Page 1 of 2

Context:

Increasing globalization, climate change or other factors such as natural disasters, pandemics or epidemics may from time to time require emergency changes to how education is delivered. An example of this is the world-wide pandemic caused by COVID 19 which occurred in 2020. The Board will need to deal with those situations with as much forethought as possible.

Policy Statement:

1. In responding to educational changes related to any emergency, the Board will use an evidence-based approach that follows the advice or direction of experts and is responsive to requirements established by government or emergency response authorities.
2. The Board's priority in such an emergency, whether short term or of extended duration, is to ensure the health and safety of learners and employees.

Guidelines:

1. The Board is committed to ensuring clear, calm and honest communication in as much detail and in as timely a way as possible.
2. The Board will ensure all activities and interactions are as kind, calm and considerate as possible.
3. The Board will focus on continuity of authentic education as much as possible.
4. The Board will give high priority to equity and support for vulnerable learners.
5. Agile decision-making may be required, therefore all members of management and the Board will be ready for timely and effective decision-making.
6. The Board will act together and in a supportive way throughout the emergency.
7. Where there are challenges related to language in collective agreements the Board is committed to thorough consultation with union representatives.

Definitions:

1. World-wide, federal and provincial emergencies are those announced by United Nations bodies, such as the World Health Organization, and the federal and provincial governments. This policy is limited to said emergencies that cause disruption to the normal provision of education.
2. Experts are those sources, who are most likely to understand and have full knowledge of the emergency situation, for example in the case of a health emergency the World Health Organization, the Public Health Agency of Canada, the Provincial Health Officer and the regional Medical Health Officer.
3. Emergency response authorities from whom direction will be taken in the event of an emergency include Emergency Management BC and local or regional police, fire and emergency response agencies.
