MANAGEMENT REPORT

The Financial Statements contained in this Statement of Financial Information under the *Financial Information Act* have been prepared by management in accordance with Canadian generally accepted accounting principles and the integrity and objectivity of these statements are management's responsibility.

Management is also responsible for all other schedules of financial information and for ensuring this information is consistent, where appropriate, with the information contained in the financial statements and for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

The Board of Education is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal control and for approving the financial information included in the Statement of Financial Information.

The external auditors, McGorman MacLean, Chartered Accountants, conduct an independent examination, in accordance with generally accepted auditing standards, and express their opinion on the financial statements as required by the *School Act*. Their examination does not relate to the other schedules of financial information required by the *Financial Information Act*. Their examination includes a review and evaluation of the board's system of internal control and appropriate tests and procedures to provide reasonable assurance that the financial statements are presented fairly.

MANAGEMENT REPORT

Version: 7871-7125-5142

Management's Responsibility for the Financial Statements.

The accompanying financial statements of School District No. 69 (Qualicum) have been prepared by management in accordance with the accounting requirements of Section 23.1 of the Budget Transparency and Accountability Act of British Columbia, supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board, and the integrity and objectivity of these statements are management's responsibility. Management is also responsible for all of the notes to the financial statements and schedules, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

The preparation of financial statements necessarily involves the use of estimates based on management's judgment particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

Management is also responsible for implementing and maintaining a system of internal controls to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and reliable financial information is produced.

The Board of Education of School District No. 69 (Qualicum) (called the "Board") is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises these responsibilities through the Board. The Board reviews internal financial statements on a monthly basis and externally audited financial statements yearly.

The external auditors, McGorman MacLean, conduct an independent examination, in accordance with Canadian generally accepted auditing standards, and express their opinion on the financial statements. The external auditors have full and free access to financial management of School District No. 69 (Qualicum) and meet when required. The accompanying Independent Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the School District's financial statements.

INDEPENDENT AUDITORS' REPORT

To the Board of Education of School District No. 69 (Qualicum), and
To the Minister of Education, Province of British Columbia

We have audited the accompanying financial statements of School District No. 69 (Qualicum), which comprise the statement of financial position of as at June 30, 2018, the statements of operations, changes in net financial assets (debt) and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, these financial statements present fairly, in all material respects, the financial position of the School District No. 69 (Qualicum) as at June 30, 2018 and the results of its operations, changes in net financial assets (debt) and cash flows for the year then ended in accordance with the accounting requirements of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia.

Emphasis of Matter

Without modifying our opinion, we draw attention to note 2 to the financial statements which describes the basis of accounting and the significant difference between such basis of accounting and Canadian public sector accounting standards.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of the School District taken as a whole. The current year's supplementary information included in Schedules 1 through 4 is presented for purposes of additional analysis. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**SCHOOL DISTRICT NO. 69 (QUALICUM)
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2018**

NOTE 1 AUTHORITY AND PURPOSE

The School District, established in 1946, operates under authority of the *School Act* of British Columbia as a corporation under the name of "The Board of Education of School District No. 69 (Qualicum)", and operates as "School District No. 69 (Qualicum)." A board of education ("Board") elected for a four-year term governs the School District. The School District provides educational programs to students enrolled in schools in the district, and is principally funded by the Province of British Columbia through the Ministry of Education. School District No. 69 (Qualicum) is exempt from federal and provincial corporate income taxes.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District are prepared by management in accordance with the basis of accounting described below. Significant accounting policies of the School District are as follows:

a) Basis of Accounting

These financial statements have been prepared in accordance with Section 23.1 of the *Budget Transparency and Accountability Act of the Province of British Columbia*. This Section requires that the financial statements be prepared in accordance with Canadian public sector accounting standards except in regard to the accounting for government transfers as set out in Notes 2(e) and 2(j).

In November 2011, the Treasury Board provided a directive through Restricted Contributions Regulation 198/2011 providing direction for the reporting of restricted contributions whether they are received or receivable by the School District before or after this regulation was in effect.

As noted in Notes 2(e) and 2(j), Section 23.1 of the *Budget Transparency and Accountability Act* and its related regulations require the School District to recognize government transfers for the acquisition of tangible capital assets into revenue on the same basis as the related amortization expense. As these transfers do not contain stipulations that create a liability, Canadian public sector accounting standards would require these grants to be fully recognized into revenue. The impact of this difference on the financial statements of the School District is as follows:

Year ended June 30, 2017 - increase in annual surplus by \$880,072

June 30, 2017 - increase in accumulated surplus and decrease in deferred contributions by \$46,568,035

Year ended June 30, 2018 - decrease in annual surplus by \$683,878

June 30, 2018 - increase in accumulated surplus and decrease in deferred contributions by \$45,884,157

b) Cash and Cash Equivalents

Cash and cash equivalents include cash and highly liquid securities that are readily convertible to known amounts of cash and that are subject to an insignificant risk of change in value. These cash equivalents generally have a maturity of three months or less at acquisition and are held for the purpose of meeting short-term cash commitments rather than for investing.

SCHOOL DISTRICT NO. 69 (QUALICUM)
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2018

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c) Accounts Receivable

Accounts receivable are measured at amortized cost and shown net of allowance for doubtful accounts.

d) Unearned Revenue

Unearned revenue includes tuition fees received for courses to be delivered in future periods and receipt of proceeds for services or products to be delivered in a future period. Revenue will be recognized in that future period when the courses, services, or products are provided.

e) Deferred Revenue and Deferred Capital Revenue

Deferred revenue includes contributions received with stipulations that meet the description of restricted contributions in the Restricted Contributions Regulation 198/2011 issued by the Treasury Board. When restrictions are met, deferred revenue is recognized as revenue in the fiscal year in a manner consistent with the circumstances and evidence used to support the initial recognition of the contributions received as a liability as detailed in Note 2(j).

Funding received for the acquisition of depreciable tangible capital assets is recorded as deferred capital revenue and amortized over the life of the asset acquired as revenue in the statement of operations. This accounting treatment is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that creates a liability in which case the transfer is recognized as revenue over the period that the liability is extinguished. See Note 2(a) for the impact of this policy on these financial statements.

f) Employee Future Benefits

The School District provides certain post-employment benefits including vested and non-vested benefits for certain employees pursuant to certain contracts and union agreements.

The School District accrues its obligations and related costs including both vested and non-vested benefits under employee future benefit plans. Benefits include vested sick leave, accumulating non-vested sick leave, early retirement, retirement/severance, vacation, overtime and death benefits. The benefits cost is actuarially determined using the projected unit credit method pro-rated on service and using management's best estimate of expected salary escalation, termination rates, retirement rates and mortality. The discount rate used to measure obligations is based on the cost of borrowing.

The cumulative unrecognized actuarial gains and losses are amortized over the expected average remaining service lifetime (EARS_L) of active employees covered under the plan.

The most recent valuation of the obligation was performed at March 31, 2016 and projected to March 31, 2019. The next valuation will be performed at March 31, 2019 for use at June 30, 2019. For the purposes of determining the financial position of the plans and the employee future benefit costs, a measurement date of March 31 was adopted for all periods subsequent to July 1, 2004.

The School District and its employees make contributions to the Teachers' Pension Plan and Municipal Pension Plan. The plans are multi-employer plans where assets and obligations are not separated. The costs are expensed as incurred.

SCHOOL DISTRICT NO. 69 (QUALICUM)

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Tangible Capital Assets

The following criteria apply:

- Tangible capital assets acquired or constructed are recorded at cost which includes amounts directly related to acquisition, design, construction, development, improvement or betterment of the assets. Cost also includes overhead directly attributable to construction as well as interest costs that are directly attributable to the acquisition or construction of the asset.
- Donated tangible capital assets are recorded at their fair market value on the date of donation, except in circumstances where fair value cannot be reasonably determined, which are then recognized at nominal value.
- Work-in-progress is recorded as an acquisition to the applicable asset class at substantial completion.
- Tangible capital assets are written down to residual value when conditions indicate they no longer contribute to the ability of the School District to provide services or when the value of future economic benefits associated with the sites and buildings are less than their net book value. The write-downs are accounted for as expenses in the Statement of Operations.
- Buildings that are demolished or destroyed are written-off.
- Works of art, historic assets and other intangible assets are not recorded as assets in these financial statements.
- The cost, less residual value, of tangible capital assets (excluding sites), is amortized on a straight-line basis over the estimated useful life of the asset. It is management's responsibility to determine the appropriate useful lives for tangible capital assets. These useful lives are reviewed on a regular basis or if significant events initiate the need to revise.

- Estimated useful life is as follows:

Buildings	40 years
Furniture and Equipment	10 years
Vehicles	10 years
Computer Hardware	5 years

h) Prepaid Expenses

Amounts for maintenance contracts and other services are included as a prepaid expense and stated at acquisition cost and are charged to expense over the periods expected to benefit from it.

i) Funds and Reserves

Certain amounts, as approved by the Board are set aside in accumulated surplus for future operating and capital purposes. Transfers to and from funds and reserves are an adjustment to the respective fund when approved (see Note 15 – Accumulated Surplus).

SCHOOL DISTRICT NO. 69 (QUALICUM)
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2018

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j) Revenue Recognition

Revenues are recorded on an accrual basis in the period in which the transactions or events occurred that gave rise to the revenues, when the amounts are considered to be collectible and can be reasonably estimated.

Contributions received or where eligibility criteria have been met, are recognized as revenue except where the contribution meets the criteria for deferral as described below. Eligibility criteria are the criteria that the School District has to meet in order to receive the contributions including authorization by the transferring government.

For contributions subject to a legislative or contractual stipulation or restriction as to their use, revenue is recognized as follows:

- Non-capital contributions for specific purposes are recorded as deferred revenue and recognized as revenue in the year related expenses are incurred.
- Contributions restricted for site acquisitions are recorded as revenue when the sites are purchased.
- Contributions restricted for tangible capital assets acquisitions, other than sites, are recorded as deferred capital revenue and amortized over the useful life of the related assets.

Donated tangible capital assets, other than sites, are recorded at fair market value and amortized over the useful life of the assets. Donated sites are recorded as revenue at fair market value when received or receivable.

The accounting treatment for restricted contributions is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that meets the criteria for liability recognition in which case the transfer is recognized as revenue over the period that the liability is extinguished. See note 2(a) for the impact of this policy on these financial statements.

Revenue related to fees or services received in advance of the fee being earned or the service being performed is deferred and recognized when the fee is earned or service performed.

Investment income is reported in the period earned. When required by the funding party or related Act, investment income earned on deferred revenue is added to the deferred revenue balance.

k) Expenditures

Expenses are reported on an accrual basis. The cost of all goods consumed and services received during the year is expensed.

k) Expenditures (continued)

Categories of Salaries

- Principals and Vice-Principals employed under an administrative officer contract are categorized as Principals and Vice-Principals.
- Superintendents, Assistant Superintendents, Secretary-Treasurers, Trustees and other employees excluded from union contracts are categorized as Other Professionals.

Allocation of Costs

- Operating expenses are reported by function, program, and object. Whenever possible, expenditures are determined by actual identification. Additional costs pertaining to specific instructional programs, such as special and aboriginal education, are allocated to these programs. All other costs are allocated to related programs.
- Actual salaries of personnel assigned to two or more functions or programs are allocated based on the time spent in each function and program. School-based clerical salaries are allocated to school administration and partially to other programs to which they may be assigned. Principals' and Vice-Principals' salaries are allocated to school administration and may be partially allocated to other programs to recognize their other responsibilities.
- Employee benefits and allowances are allocated to the same programs, and in the same proportions, as the individual's salary.
- Supplies and services are allocated based on actual program identification.

l) Financial Instruments

A contract establishing a financial instrument creates, at its inception, rights and obligations to receive or deliver economic benefits. The financial assets and financial liabilities portray these rights and obligations in the financial statements. The School District recognizes a financial instrument when it becomes a party to a financial instrument contract. Financial instruments consist of cash and cash equivalents, accounts receivable and accounts payable and accrued liabilities.

All financial assets and liabilities are recorded at cost or amortized cost and the associated transaction costs are added to the carrying value of these instruments upon initial recognition. Transaction costs are incremental costs directly attributable to the acquisition of a financial asset or a financial liability.

m) Measurement Uncertainty

Preparation of financial statements in accordance with the basis of accounting described in Note 2(a) requires management to make estimates and assumptions that impact reported amounts of assets and liabilities at the date of the financial statements and revenues and expenses during the reporting periods. Significant areas requiring the use of management estimates relate to the potential impairment of assets, rates for amortization and estimated employee future benefits. Actual results could differ from those estimates.

SCHOOL DISTRICT NO. 69 (QUALICUM)
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2018

NOTE 10 DISPOSAL OF SITES AND BUILDINGS

During the year the District sold land at Galvin Place, Qualicum Beach for \$148,315 and Grafton Avenue, Errington for \$270,886. The original costs of both parcels of land were nominal. As no funding was provided by the Ministry for the purchase of these properties, the total proceeds of \$419,201 were allocated to Local Capital.

NOTE 11 CONTRACTUAL OBLIGATIONS AND CONTINGENCIES

The School District, in conducting its usual business activities, is involved in legal claims and litigation. In the event any unsettled claims are successful, management believes that such claims are not expected to have a material effect on the School District's financial position.

NOTE 12 EMPLOYEE PENSION PLANS

The School District and its employees contribute to the Teachers' Pension Plan and Municipal Pension Plan, jointly trustee pension plans (the "plans"). The board of trustees for these plans, representing plan members and employers, are responsible for administering the pension plans, including investing assets and administering benefits. The plans are multi-employer defined benefit pension plans. Basic pension benefits provided are based on a formula. As at December 31, 2016, the Teachers' Pension Plan has about 45,000 active members and approximately 37,000 retired members. As at December 31, 2016, the Municipal Pension Plan has about 193,000 active members, including approximately 24,000 from School Districts.

Every three years, an actuarial valuation is performed to assess the financial position of the plans and adequacy of plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plans. The actuary's calculated contribution rate is based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plans. This rate may be adjusted for the amortization of any actuarial funding surplus and will be adjusted for the amortization of any unfunded actuarial liability.

The most recent actuarial valuation of the Teachers' Pension Plan as at December 31, 2014 indicated a \$449 million surplus for basic pension benefits on a going concern basis. As a result of the 2014 basic account actuarial surplus and pursuant to the joint trustee agreement, the employer basic contribution rate decreased.

The most recent actuarial valuation for the Municipal Pension Plan as at December 31, 2015 indicated a \$2,224 million funding surplus for basic pension benefits on a going concern basis. As a result of the 2015 basic account actuarial valuation surplus and pursuant to the joint trustee agreement, \$1,927 million was transferred to the rate stabilization account and \$297 million of the surplus ensured the required contribution rate remained unchanged.

The School District paid \$4,129,673 for employer contributions to these plans in the year ended June 30, 2018 (2017 - \$3,883,506).

The next valuation for the Teachers' Pension Plan was as at December 31, 2017, with results available in 2018. The next valuation for the Municipal Pension Plan will be as at December 31, 2018, with results available in 2019.

SCHOOL DISTRICT NO. 69 (QUALICUM)
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2018

NOTE 12 EMPLOYEE PENSION PLANS (continued)

Employers participating in the plans record their pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plan accounting). This is because the plans record accrued liabilities and accrued assets for each plan in aggregate, resulting in no consistent and reliable basis for allocating the obligation, assets and cost to individual employers participating in the Plan.

NOTE 13 ASSET RETIREMENT OBLIGATION

Certain schools in the School District contain asbestos. No amount has been recorded in these financial statements with regard to this potential liability since the fair value of future removal costs cannot be reasonably estimated due to unknown timelines.

NOTE 16 CONTRACTUAL RIGHTS

Contractual rights are rights to economic resources arising from contracts or agreements that will result in revenues and assets in the future. The School District's contractual rights arise because of contracts entered into for the rental of facilities. The following summarizes the contractual rights of the School District for future assets:

	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2022</u>

NOTE 17 RELATED PARTY TRANSACTIONS

The School District is related through common ownership to all Province of British Columbia ministries, agencies, school districts, health authorities, colleges, universities and crown corporations. Transactions with these entities, unless disclosed separately, are considered to be in the normal course of operations and are recorded at the exchange amount.

SCHOOL DISTRICT NO. 69 (QUALICUM)
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2018

NOTE 20 RISK MANAGEMENT

The School District has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk.

The Board ensures that the School District has identified its risks and ensures that management monitors and controls them.

a) Credit risk:

Credit risk is the risk of financial loss to an institution if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Such risks arise principally from certain financial assets held consisting of cash and cash equivalents, amounts receivable and investments.

The School District is exposed to credit risk in the event of non-performance by a debtor. This risk is mitigated as most amounts receivable are due from the Province and are collectible.

It is management's opinion that the School District is not exposed to significant credit risk associated with its cash and cash equivalents as they are placed in recognized British Columbia institutions and the School District invests solely in the Central Deposit Program with the Ministry of Finance.

b) Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of currency risk and interest rate risk.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. It is management's opinion that the School District is not exposed to significant currency risk, as amounts held and purchases made in foreign currency are insignificant.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The School District is exposed to interest rate risk through its investments. It is management's opinion that the School District is not exposed to significant interest rate risk as they invest solely in the Central Deposit Program with the Ministry of Finance.

c) Liquidity risk:

Liquidity risk is the risk that the School District will not be able to meet its financial obligations as they become due.

The School District manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the School District's reputation.

Risk Management and insurance services for all School Districts in British Columbia are provided by the Risk Management Branch of the Ministry of Finance.
