

TRANSPORTATION DEPT.

June 2018

Frequently asked questions:

- *What if I move my child from the out of boundary school to the neighborhood school?*
 - Please contact the new school as soon as possible and direct any transportation questions to the Transportation Department
- *Can I have the pick up and/or drop off point relocated for my child?*
 - While we are not able to accommodate each request, the Transportation Department monitors concerns and suggestions for changes and will determine the most appropriate collection point for an area.
- *Doesn't the school district have to bus my child?*
 - This is a fairly common misconception. The School Act does not require boards to provide transportation. The School Act gives permission to establish a transportation system and the right to determine the rules and management of that system.
