

The 2023/24 DPAC executives are thrilled to announce the completion of a fantastic project: 24 brand new benches have been built, painted and delivered to schools within the Qualicum School District!

This project wouldn't have been possible without the incredible support of our community. We want to extend a huge thank you to everyone who contributed their time, effort, and resources to make this happen. A special shout-out goes to Home Hardware for their invaluable assistance. Their generosity allowed us to stay within budget, using approximately \$5,000 of the \$17,000 allocated by the vote.

We hope these benches bring joy and comfort to students and staff alike, providing a welcoming space for relaxation and connection.

Thank you again to everyone who made this project a success!
