

## **Immunization (Measles) Catch up for Students in Kindergarten to Grade 4**

All kindergarten to grade 4 students who are behind on their immunizations will be receiving a call from the public health unit in the upcoming weeks. These students will be offered immunizations at a school-based immunization clinic over the next couple of months with the consent of a parent, guardian or representative. Parent(s), guardians or representatives will be required to accompany students to the public health school based immunization clinic.

Students who are up to date on their immunizations will receive a record of immunization by the end of this school year. These will be distributed from public health and delivered to the students at school. Please keep this record to provide to your child's school this fall.

First Nations children who receive health services in their communities may be able to access immunization records and services at their Community Health Centers.

Please contact the local Health Unit at 250-947-8242 and ask to speak with a Public Health Nurse if you have any questions.
