

## Technology Integrated Distributed Experiential Studies

### GRADUATION PROGRAM 10-12 at CEAP (KSS location)

TIDES GRADUATION PROGRAM 10-12 is an extension of our very popular TIDES 8-9 PROGRAM. This program is for learners who want their education to be based on a blended learning model. For those students who like to dive deeper into their learning both independently and collaboratively. Concepts and skills will be integrated into cross-curricular learning experiences, with all core subjects completed over the 10-month school session. Students in this program are independent learners who must attend in our classroom at Kwalikum Secondary School, on 3 designated ½ days per week, and complete 2 days of independent I-learning. Provisions can be made for students to attend school on I-learning days, in our TIDES Classrooms, to complete their work. During this independent work time students can receive support from CEAP/TIDES staff members if needed.

### AT TIDES...

- ✓ TIDES provides a package of courses at each grade level, offered in a linear (all year) manner, using a cross-curricular approach to connect learning in different subjects.
- ✓ Students participate in two formal inquiry projects, which incorporate all TIDES core subjects with an effort to integrate students interests and passions.
- ✓ Students use technology on a daily basis, to support learning and connect them to information and the world around them.
- ✓ Students have access to outdoor space used for a variety of alternative learning experiences, including participating in sustainability & agricultural practices.
- ✓ Students may attend our TIDES classroom on I-learning days, to work independently. Attendance may become mandatory on I-learning days should the student require more support to be successful.
- ✓ Electives and exploratory courses are co-planned by TIDES staff and parents, with support from community partners or from Kwalikum Secondary. Individual student service provider funding is available to support activities.

### What TIDES offers ...

- ✓ TIDES 10: will include Math 10 (Workplace or FPC), Science 10, Social Studies 10, and English 10 (Creative Writing & Composition).
- ✓ TIDES 11: will include Math 11 (3 choices), English New Media 11, Life Sciences 11 or Earth Sciences 11, and a Grade 12 Socials Studies.
- ✓ TIDES 12: will include English Studies 12, Anatomy & Physiology 12, Environmental Science 12, and a Grade 12 Socials Studies.
- ✓ Other classes are added by using CEAP TIDES/DL or KSS classes at each grade level.
