Dear Parents;

This was sent on behalf of our local Conservation Officer:

Please be advised that we have had another cougar sighting at Middlegate road early this morning. No aggressive or threatening behavior reported. From the information obtained to this point, behaviors seem consistent with a family unit in the area and that there MAY BE a kill site somewhere off Middlegate road. Sighting consistent with natural cougar behavior and occurred in area known for cougar habitat.

I would like to reinforce the importance that children are supervised when catching the bus in the early mornings and getting off the bus at night, as I am aware there is a bus stop close to this area. If a cougar is seen adults should pick up young children. All other cougar safety tactics that we have talked about, and are also on wildsafebc.ca, apply.

Please stay vigilant and report all encounters/sightings to RAPP 1-877-952-7277.
