HUMAN SERVICES EXPLORATION PROGRAM

The purpose of the program is for students to learn about child development, and explore training and career options in a field of interest. Student will develop the skills needed, through a variety of related practicum placements, certification courses, and University Programming, all of which is directly transferable to post graduation studies. Students will gain practical knowledge through practicum placement which can be applied to a wide variety of human service related job settings. Student will also have the opportunity to earn UNIVERISTY COURSE CREDIT as a Dual Credit Student.
