

## **Mission Statement**

At École Oceanside Elementary School, our dream is for students to feel safe, accepted, empowered, loved and respected. As a community we appreciate, embrace, and celebrate individual differences. We believe that students need a structured and encouraging environment to learn and grow. We believe that students need a sense of connection and belonging to develop trusted and healthy relationships. WE believe that students need support and choice to feel empowered to achieve their personal goals. We believe students can make the world a better place through kindness, curiosity, vulnerability and creativity.
